

The leading  
shipchandler in INDIA  
Since 1979

*Known for timely service*

## ABOUT US

**Mr.  
Harish Gondalia**  
Director

M/S. SHIPCHANDLERS in India, and was established by **Mr. Harish Gondalia**, with a previous accumulated experience of more than 44 years in the field of Ship Chandling and Marine Services.

Our aim is to fulfil INDIA's maritime needs. It was established in 1979 following the values of loyalty and trust. Through the years we have built a **network of strong and close business relations** providing clients with fast and reliable services, high quality products and always reasonable prices.

*Known for timely service*

# TEAM RESPONSE

---

Our branches of ship suppliers with a highly qualified and experienced team of multilingual employees are ready to serve and offer you a guaranty of chandling, with fast delivery response time. We do our utmost to assist all of our **clients, ship-managers, ship-owners, catering companies, shipping-agents & ship-charterers** by developing our payment terms and reducing our mark-up to build long **relationships** with our clients

## OUR VALUES

---

In the last few years the **competition between the ship chandling companies** has increased tempering the war of prices. Against obtaining more clients, some chandling companies, sacrificing their actual values, make deals at quite low prices, obviously offering declined quality products.

Our suggestion would encourage you to bear in mind that **granted quality** certificates does not always meet real standard services. So Being aware of **picking the right chandling company** seems a good idea after all.

**Shipchandlers commitment**, as always, keeps giving you high quality and reliable services to **ensure safe**, and with the most up to date **trusted quality supplies**.

## HOW WE WORK

---

Today the marine industry requires **qualified personnel** with understanding of the shipping needs and operations with the ability to recognize and respond creatively to all changes of the market.

We take care of your **orders** in a **fast** and **efficient** way offering you priority at your satisfaction, consequently your ship's crew can enjoy real good quality products. Our commitment is to make our standard offers more accessible and affordable, always challenging new technology needs.

We believe that people are the most important resource in the world. We continue to increase in size consistently with our family member like employees without making concessions from integrity and honesty

## VISION

---

- To maintain our professional and prestige in the shipping sector.
- To preserve our market leadership in our expertise areas.
- To be the strongest and most trusted company nationally and globally.

## MISSION

---

- To give relevant and stable service consistently.
- To supply quality products corresponding to our clients expectations.
- To provide healthy and safe working conditions.
- To take responsibility for environmental protection.
- To promote respectable long term relations with our clients.
